

One day Mo sees a poster for an NHS service called Electronic Repeat Dispensing

NHS

Do you get regular medicines?

Save time and help your GP practice, your pharmacy and the NHS by using electronic repeat dispensing.

Your doctor will send a series of repeat prescriptions to your pharmacy to stop you having to go to see them if you need to get your order from next time.

For more information visit www.nhs.uk/electronicrepeatdispensing or ask your doctor or pharmacist for more information.
