

CPCF Checklist

Friday 20th September 2019

PSNC is working to provide as much information and as many resources as possible to help community pharmacy teams to understand the details of the new Community Pharmacy Contractual Framework (CPCF) agreement as they are finalised in the ongoing negotiations.

This email is one of a series of recommended actions for community pharmacy contractors to help you to get ready for the introduction of all elements of the five-year CPCF. There is a lot to do and details will be coming out in stages, so this email series will help guide you through the process and highlight all of the resources and support available to you.

12. Read the CPCS Toolkit ahead of providing the service next month

The NHS Community Pharmacist Consultation Service (CPCS) will commence on 29th October 2019 and the Toolkit to support pharmacy teams to provide the service has just been published on the NHS Business Services Authority (NHSBSA) website.

The Toolkit has been developed by NHS England and NHS Improvement (NHSE&I), with input from the Urgent Care Delivery and Implementation Group (a group of NHS and community pharmacy experts set up by PSNC and NHSE&I to help implement the CPCS).

It contains two sections – the first is a short briefing on the service which is aimed at all pharmacy team members. The second section contains more detail on the service, so it can be used as a reference guide and pharmacists who will be providing the service will find it useful to read in full.

Not registered to provide the service?

If pharmacy contractors haven't registered to provide the CPCS, they can do so now and claim the Transition payment supplement (£900 if claimed by 1st December 2019), by completing the declaration on the [NHSBSA Manage Your Service \(MYS\) portal](#).

Did you miss the PSNC and NHSE&I webinar on CPCS?

On Monday, PSNC and NHSE&I held a joint webinar for pharmacy teams and others interested in learning more about the service and how to implement it; nearly 500 people tuned in on the night and 98% of people responding to the feedback survey found it useful.

If you missed the webinar, you can [watch the on-demand version](#).

[Find out more about the service on our CPCS hub page](#)
