Teaser 3: What puts patients most at risk and how do we work with GPs to reduce this?

Wessex Academic Science Network has a leading national role in implementing PINCER with GP practices to reduce harm from medicines. NICE recommends that organisations and Health Care Professionals should consider applying the principles of the PINCER intervention to reduce the number of medication related patient safety incidents.

Do you know what PINCER is and how you can work with GPs to support?

If you are interested in learning more in a friendly like-minded environment, with a two-course hot meal and refreshments provided then please book-in now.

Book-in to your nearest event using the Eventbrite link on the [CPSC Training & Development webpage](#).

Whilst on our website, please look around at other interesting events happening in your area.
